Refacing or replacing?

Basic refacing consists of replacing a new kitchen cabinet door, drawer fronts and applying a new veneer over the existing surface.

Another budget friendly option to spruce up your cabinet would be resurfacing where you repaint or recoat your existing cabinet.

- Refacing: \$300 ~ \$3,500
- Resurfacing: \$1,000+

If you still decide to replace your old cabinet, there are cost factors people tend to forget. When you decide to get a brand new cabinet, do consider these factors:

- Cost of dismantling/removing existing cabinets: \$400+
- New cabinet cost: \$3,500 ~ \$8,000+
- Installation: \$130+
